

the lesters

Musical accomplices for over fifteen years, THE LESTERS have been accused by some of living in the past. A common love of timeless songwriting and classic jazz has long kept this vocal trio exploring arrangements and playing for appreciative audiences whenever the opportunity strikes.

In November 2017, THE LESTERS released their long-awaited debut EP: THE PROMISE, featuring six original songs lovingly crafted over the course of four sessions at Blue Rodeo's recording studio The Woodshed in Toronto, ON.

THE PROMISE is the sound of three experienced songwriters exploring their collective voice as a band. With a blend of jazz, folk and pop, THE LESTERS draw their inspiration from songwriters and performers ranging from Paul Simon and Tom Waits to Radiohead, Norah Jones and Ray LaMontagne, with a sonic foundation of piano, acoustic guitar and double bass underpinning their soulful music.

Featuring pianist Jeff Ulster, Murray Foster on bass and Tory Cassis on guitar and vocals, THE LESTERS offer something old, something new.
